

## Opportunities for Investors

- ✓ Guaranteed Xs (profit) on presale
- ✓ The affiliate programme - up to 10%
- ✓ Tokens can be sold on the stock market or on the platform.
- ✓ Reinvestment Opportunities

## Monetization

- ✓ 2% of integrated online and offline shops
- ✓ 2% of integrated services
- ✓ 2% of every transaction
- ✓ Additional «VIP» services

## Token Economy

SafeBAS token is ERC20 token and the system of smart contracts based on Ethereum. Due to this protocol SafeBAS tokens can be transferred from one wallet to another wallet and it is possible to invest on cryptocurrency stock markets. These tokens can be used to pay for services or goods on the platform. Tokens can be sold on the stock market or on the platform. All the unsold tokens will be destroyed.

## Advantages

It is all-in-one. The seller offers goods; the shipping company offers the service of delivery. The customer buys the goods and the service of delivery on one platform by means of one smart contract, the commission is the lowest. It is only one of the examples. Is it cool?

The world market of e-commerce includes more than 1,5 billion dollars. We want to get 50% of the market and we will do it.
