Hi. All! I've discovered a very interesting project recently. This is the first market place based on smart contracts. They have started ICO and I have bought several SafeBas tokens!

Terms and Conditions of the Referral Programme

The referable programme has already been launched and it will finish at the end of SBS tokens sales. Tokens will be transferred to the wallet of the participant within 4 weeks after the end of the sales. The number of the attracted investors and the value of the participants is measured automatically by means of smart contracts which indicate transactions related to the referral link. The value of the reward will be shown in your account. We recommend to use [MyEtherWallet](#).

You will get 10% for every investment of the investors who you will attract.

For example, if the investor invests 10 ETH, you will receive 1 ETH.

Your referrals must invest and use the wallets which were stated when they logged in, We can't track investments which were made by means of different wallets..

The screenshot shows the 'Referrals' page on the SafeBAS.com website. The page features a navigation menu on the left with options for Dashboard, History, Referrals (selected), and Sign out. The main content area displays several key metrics: 'YOUR BALANCE (SBS)' at 750.312, 'CURRENT RATE' at 1 ETH = 377 SBS, 'CURRENT BONUS' at 30%, and 'PREICO WILL START' at 03/05 13:00. Below these metrics, the 'YOUR REFERRAL LINK' is shown as <https://ico.safebas.com/?ref=15214546641>. The 'REFERRALS COUNT' is displayed as 1. At the bottom, there is a 'REFERRALS HISTORY' table with columns for EMAIL, SUM(ETH), SUM(BTC), SUM(SBS TOKENS), and EARN(SBS TOKENS). The table contains one entry for 'y*****@gmail.ru' with zero values in all columns. A note below the table states: 'Your balance includes 10% referral bonus tokens, 0 tokens will be paid on your Ethereum wallet at the end of ICO.'

EMAIL	SUM(ETH)	SUM(BTC)	SUM(SBS TOKENS)	EARN(SBS TOKENS)
y*****@gmail.ru	0	0	0	0

Good Luck!
